December 19, 1991  
Project No. P0111-02

Mr. Dave Dillon  
Chief, Water Quality Division  
Oklahoma Water Resources Board  
600 North Harvey Avenue  
P.O. Box 150  
Oklahoma City, OK 73101-0150

Dear Mr. Dillon:

Enclosed please find the revised work plan for engineering and geological investigations for closure of Impoundments 6, 7, 8, and 9 at our Muskogee, Oklahoma facility. This revised work plan has been prepared by our consultant, Earth Sciences Consultants, Inc., to address comments submitted by both the Oklahoma Water Resources Board and the Nuclear Regulatory Commission. We are providing you with this plan for your review prior to a meeting with all involved agencies before implementation of the work. We will contact you and the other agencies in early January to schedule this meeting. In the interim, should you have any question please contact us.

Sincerely,

A handwritten signature in dark ink, appearing to read "John J. Hunter", written over a printed name and title.

John J. Hunter  
Corporate Manager of Process Engineering  
and Facilities Construction
